SENDD CONTRACTING

HomeLift Program

Turning empty houses into new beginnings for Southeast Nebraska homeowners

SENDD Contracting partners with local property owners and communities to relocate unused homes to available lots, where they are restored and rebuilt for future homeowners. From acquiring the house, moving it, setting a new foundation, and completing needed rehabilitation, we handle every step. The finished homes are sold at affordable prices, helping our towns grow, revitalize neighborhoods, and create fresh opportunities for residents.

- Acquires vacant or unused homes offered by property owners, city clerks, or county boards
- Relocates homes to new lots through donations or purchases
- Coordinates professional house-moving services to safely transport homes
- Performs essential rehabilitation and updates to ensure safety, quality, and long-term durability
- Creates affordable, move-in-ready housing for families in Southeast Nebraska
- Offers a cost-effective alternative to demolition, preserving existing housing stock
