NO-RISE REVIEW REQUEST AND CHECKLIST

_____ requests that the North Carolina National Flood Insurance Program (NCNFIP) reviews the attached No-Rise Study for _____. We have reviewed the submittal package. All of the required items for review are included as noted below. The project as shown on the Topographic Work Map matches the elements of the permit application. The project otherwise will meet all requirements for permitting under our local ordinance.

Community Official

Date

All of the items noted below are included:

- _____ Digital copy of hydraulic models used in the study;
- _____ Copy (digital or otherwise) of the effective hydraulic model;
- _____ Is the Preliminary Hydraulic Model used as the Effective Model for the analysis (Yes or No)?
- _____ Project narrative;
- _____ Topographic work map showing existing and proposed conditions;
- _____ Cross-sections showing existing and proposed conditions;
- _____ Map or plat of the property;
- _____ Preliminary plat of the mitigation area (if applicable; see below);
- _____ No-Rise Certification from a North Carolina Professional Engineer.

If a mitigation area or other space will be set aside to mitigate the effect of the encroachment, then a preliminary plat of the mitigation area, or a description of how the mitigation area will be preserved in perpetuity, will be needed.

The community should ensure compliance with the Endangered Species Act as it relates to all projects within its jurisdiction.
