

January 21, 2020

I would like to introduce you to Colville Together, a Washington State Main Street Community. We are a non-profit organization focused on the "...planning and preserving of Downtown Colville...". We have an amazing downtown, full of wonderful historic buildings that should be preserved and maintained. Not just for the good of the buildings, but to enrich the entire community. Downtown is the heart of Colville, and we strongly believe that a comfortable & thriving downtown environment encourages new businesses, promotes community use, and attracts tourists.

The Washington State Main Street Program is based on a four-point approach: Promotions, Economic Vitality, Design, and Organization. This approach gives Colville Together the opportunity to partner with the groups that are already doing things in downtown Colville a cohesive way. Being a part of the Washington State Main Street Program give us the opportunity for tax credits, grants and other incentive for property owners and the downtown. Ultimately being a part of Washington Main Street Program will bring state monies here to our community.

Colville Together was one of the organizations to receive the Smart Community Award from the Governor's Office in August. The City of Colville Downtown Plan Update and the formalization of Colville Together were the key elements in winning this award. Additionally in 2019, we partnered with the Chamber of Commerce in their Light Up Colville endeavors, we aided the City in the design and installation of Flower Dancing in the Wind, we applied for various grants and technical assistance, and we developed a Shop Small Summer Coupon book to encourage economic vitality for our local businesses.

Without support from our community, Colville Together will not be able to continue this essential work. We do receive some financial support from other local organizations, but we are striving to maintain and build our programs by seeking partnerships. We hope that you see the value in our organization and that you may be interested in helping us keep our efforts alive and momentum strong.

Please contact, Rosemary Shaw, Colville Together Executive Director at 684-4571 ex 112 or at [info@colvilletogether.org](mailto:info@colvilletogether.org) if you have any questions.

Sincerely,

Muriel Meyer  
President  
Colville Together

## 2020 Partnership Levels

### Why Become a Colville Together Partner?

- Colville Together: promotes our downtown as a must-see destination through our website, social media, newsletters, and local news outlets;
- is a connection point for unified downtown events, activities, and projects; and
- represents downtown interests to our partners, including local government, business owners, property owners, and other community wide economic development organizations
