PURPOSE OF THE DDA + PLAN OF DEVELOPMENT

A Downtown Development Authority (DDA) Plan of Development is an official public document expressing a community vision for the downtown area. The Glenwood Springs DDA’s Plan of Development will outline key concepts and priorities for the downtown as well as identify opportunities and partnerships that will strengthen the downtown. The Plan will be used as a guide to inspire and share future projects, policies, and action steps.

The Downtown Development Authority and its associated Plan of Development should be a living and evolving policy document. The purpose of the plan is to coordinate the needs and priorities for the Downtown area in conjunction with broader City of Glenwood Springs community goals by:

• Sharing the vision and values for Downtown
• Serving as a guide for policy that can inform practical implementation
• Targeting resources
• Building understanding of partners and opportunities
• Capitalizing on the momentum of previous downtown work

CREATION OF THE DDA + PLAN OF DEVELOPMENT

The City of Glenwood Springs decided to create a Downtown Development Authority (DDA) in 2001 to spur revitalization efforts and protect the historic downtown as an active, beautiful, and connected downtown hub. The 2001 Plan of Development was created as a statutorily required step in the formation of the DDA which established a revenue stream for the downtown district through Tax Increment Financing. The original plan was general in nature presenting goals and specific objectives of the DDA while listing specific examples of projects for consideration by the DDA.

DDA MISSION

The Glenwood Springs DDA’s mission is to create vitality for the downtown; its plans and projects include strengthening downtown as the retail, entertainment, office, government, and tourist hub of the area. The DDA ensures access for all.
DOWNTOWN DEVELOPMENT AUTHORITY PURPOSE

The City of Glenwood Springs created a DDA through City Ordinance No. 21, Series 2000 defining the boundaries of a proposed Authority and submitting the question of establishing the DDA to a vote. On November 7, 2000 the Glenwood Springs Community approved, through a vote, the establishment of the Downtown Development Authority. In January, 2001, City Council passed Ordinance No. 44, Series of 2000 establishing the Board of Directors of the DDA and establishing its powers and duties. Although the state’s DDA statute enables a council to enact a property tax mill levy increase or a sales tax increase after a vote, it was decided not to ask for any property or sales tax increases. Instead, it was decided that the Glenwood Springs DDA would rely on Tax Increment Financing for its funding stream.

The 2001 Plan of Development provided the necessary documentation for establishment of the TIF setting up a baseline of sales and property taxes to fund the DDA. The sales and property taxes that accrue to the DDA do not represent any kind of a tax increase, but are strictly an apportionment of revenues generated by the district to be spent in the district. The TIF expires in 2027, the DDA board and council will need to decide before that time period about a variety of options for extension of the TIF.

The DDA has several overarching goals: it seeks to enhance and broaden the downtown experience for residents and guests through infrastructure, beautification, pedestrian access and connections to open space, views and river corridors. Revenues to the DDA are earmarked and used exclusively for the purposes of downtown vitalization. Additional funding sources include grants and municipal partnerships.

HOW TO GET INVOLVED

The DDA is a strong partner for downtown initiatives and works with many groups in the community. The DDA is pleased to engage with businesses, organizations, and property owners, as well as interested citizens. The bylaws, in Appendix A, share governance and other details of the organizational management. Per the bylaws, the DDA is led by an executive director, who reports to the DDA board. The board includes seven community representatives appointed by the Council, further information about the DDA structure can be found in the appendices.
PLAN OF DEVELOPMENT USES
The Core Values and Outcome Areas shared in this Plan should inform decisions by City Council, the Downtown Development Authority (DDA), the Glenwood Springs Chamber Resort Association, the Planning & Zoning Commission, other City boards and commissions, staff, key partners, residents, property owners, developers and other stakeholders in the Downtown area.

• Staff & Decision-Makers: The City, DDA and Chamber should reference the Plan when developing work plans, allocating funding for programs and projects, reviewing development proposals, and adopting new regulations that impact Downtown.

• Residents, Businesses & Property Owners: Property owners, business owners, residents and community interest groups should use this Plan as the foundation for conversations with decision-makers and developers about the needs and priorities for Downtown.

• Developers: Applicants for building and development projects should reference the Plan when proposing new infill or redevelopment projects and as a starting point for a dialogue with neighbors and stakeholder groups about such proposals.

• Partners & Other Stakeholders: Private sector partners, non-profit organizations, and other partner organizations should review the Plan to better understand the community’s vision and priorities for Downtown.

DDA PLAN OF DEVELOPMENT UPDATE
The current Plan of Development was completed in 2001 and Downtown Glenwood Springs is a very different place than it was nearly 20 years ago. While the purpose of the DDA remains relevant, it is time to update the Plan of Development for several reasons. The updated Plan of Development will:

• Reflect advances and changes in Downtown in the last 20 years!
• Align the plan with the City of Glenwood Springs Land Use Code, Comprehensive Plan and any future updates, Area Wide Plan, 6th Street Master Plan, City Economic Development Strategy, existing Housing Study, Arts and Culture Plan, and other relevant City plans.
• Integrate the core values that Glenwood Springs encourages such as our local and regional residential needs, placemaking, access, equity, and a dedicated downtown advocate.
• Create a strong policy foundation to be used to develop action plans for resource allocations by the DDA & the City of Glenwood Springs.
GLENWOOD SPRINGS DOWNTOWN
EXISTING CONDITIONS

The downtown district includes a rich mix of business types and entities bordering both sides of the Colorado River, connected by the Grand Avenue Bridge. Several cultural and historic icons exist within the DDA including the Hotel Colorado, the Glenwood Hot Springs, the Hotel Denver, the old Train Station, and Two Rivers Park. These renowned institutions are synonymous with Glenwood Springs; images of these buildings inextricably tied to the sense of place that is Glenwood for both locals and tourists worldwide.

By latest tally, the DDA district includes over 200 business entities, a mixture of retail, restaurants, hotels, attractions, and other uses. Beyond the historic entities noted above, the downtown is defined by restaurants located along 7th Street providing a rich mixture of eating establishments and vitality along this important vehicular and pedestrian route. That same energy winds up Grand Avenue along the wing streets and Grand itself with a variety of restaurant and retail experiences. Cooper Avenue to the east adds to the downtown vibe. Across the river to the north, 6th Street offers added shopping and dining opportunities, with the Iron Mountain Hot Springs and Adventure Park on the northern boundary of the district.

The downtown is in a constant state of evolution as business ownership changes, and opportunities present themselves for redevelopment or new development. The DDA is uniquely placed to track and monitor the business mix, and with partners, to maintain and enhance our business mix for diversity and character.
GLENWOOD SPRINGS DDA
ACCOMPLISHMENTS

Since the inception of the DDA, several important projects have been completed to help shape the downtown. Of note:

- **Downtown Library Campus.** The DDA was instrumental in facilitating the collaboration between the library, Colorado Mountain College and the City, to co-locate those facilities in the downtown between 9th and Grand and 9th and Cooper. Without the DDA’s involvement, the City risked losing the library to a location outside the downtown area. As a part of this planning process, the City and DDA also developed a public parking lot on Cooper helping to address critical parking demands in the downtown core.

- **Grand Avenue Bridge.** The DDA took a leadership role in negotiations with CDOT during the Grand Avenue Bridge reconstruction project to ensure that the aesthetic of the bridge was appropriate for Glenwood expressive of the city’s history and small-town character. The DDA’s involvement helped ensure an inviting pedestrian bridge separated from vehicular traffic.

- **Pedestrian Space.** The DDA also played a pivotal role in the touchdown of the bridge between 7th and 8th on Grand, creating an opportunity for enhanced pedestrian activities rather than an underutilized, vacant space.

- **Festival Street.** The 7th Street beautification project was spearheaded by the DDA creating widened sidewalks, a more pleasing association between the street and the adjacent Colorado River corridor, and a festival street capable of carrying vehicular traffic at reduced speeds and functional for street closures for special events be those the weekly farmers market or other scheduled activities.

- **6th Street Roundabout.** In 2020, improvements were completed to the roundabout and adjacent areas at the entry to Glenwood Springs where the ramp to I-70 intersects with Highway 82 and US 6. The entry creates a favorable first impression, welcoming visitors to the community.

- **Public Bathrooms.** The DDA led an effort to add public bathrooms to the downtown, conveniently located at 7th and Colorado. The addition of the bathrooms addressed a long identified need.

- **Façade Grants.** The DDA offers a façade improvement program to eligible projects in the district. The goal of the program is to enhance building facades and thereby the vitality of downtown through a matching grant.

- **Downtown Signage.** The DDA has collaborated with the City to enhance wayfinding in the downtown through a variety of signage efforts.

- **Business + Restaurant Support.** Improvements along 7th Street and under the bridge have been vital to the neighboring restaurants during the 2020 pandemic providing adjacent accessible and attractive outdoor dining opportunities. These improvements have also resulted in new businesses coming to the under bridge and adjacent wing streets bringing added vitality and economic benefit to the downtown.
DOWNTOWN CORE VALUES

Downtown Glenwood Springs has come a long way since the original Plan of Development was written nearly 20 years ago, in 2001. The work of the last nineteen years has created a strong foundation with an infrastructure, partnership, and leadership by the Glenwood Springs DDA. As we review Glenwood Springs vision for the downtown, five core values emerge to help Downtown Glenwood Springs shape effective programming going forward:

• FOCUS ON THE LOCAL
  Grow a vibrant economic ecosystem where housing, employment, and recreation are accessible for residents. Local engagement results in community pride, patient investment, and creative idea sharing and collaboration.

• COLLABORATION
  Foster an intersection of partners, projects and ideas interacting in creative problem solving, education, and expanded communication.

• ACCESS AND EQUITY
  Establish equitable access to downtown for a diversity of users with ease of movement, a sense of safety and awareness, and removal of barriers to entry.

• YOU ARE HERE
  Create visual and physical cues that illuminate the context of arriving or departing downtown, and that highlight the opportunity to engage in the rich and diverse activities within the downtown district.

• THE THIRD PLACE
  Establish a contextual relationship for a social environment beyond home and work, where locals engage in a celebration of community.

The Glenwood Springs Downtown Development Authority (DDA) Plan of Development is intended to be used as a guide to inspire and shape future projects, policies, and action steps. The DDA Plan of Development is organized into five desired outcome areas to shape these areas of work. These desired outcome areas are neither comprehensive nor exclusive as the DDA and work in downtown must bridge silos and will necessarily connect topics and initiatives beyond the five desired outcome areas. The desired outcome areas are meant to tie Core Values to areas of work, but it is important to consider the relationship between the topic areas as well. Each desired outcome area included in the Plan of Development has a related series of principles, policies and action items that will be fleshed out in the work planning process.
SAMPLE STRATEGIES

The following are examples of actions the Glenwood Springs DDA and partners might undertake to implement the plan. PARTNERS

The Downtown Development Authority depends on collaborative relationships with a variety of entities, most importantly the City and the Glenwood Springs Chamber Resort Association. With these three organizations working in sync, the opportunities for the downtown are limitless. Two of the primary areas where partnership is most strongly required is for general economic development and the support of small business and property owners. We also maintain communication with boards, commissions, and clubs such as Planning and Zoning, the Tourism Board, Historic Preservation, and the Garden Club.

Economic development is a multi-faceted effort that Glenwood Springs prioritizes. This effort must include efforts for the larger community, as well as the region. It is important for partners to push for improvements in access to transportation, housing, and primary job creation. Glenwood Springs Downtown is the dynamic civic and social hub that supports our small business, local investment, and community engagement. The DDA advocates for the needs of downtown business and property owners, for the sense of place that keeps employees, small businesses, and visitors coming.

While there are areas of overlap, each organization has a distinct mission and sphere of influence as noted below.

OPPORTUNITY AREAS

Redevelopment is anticipated in a variety of locations throughout Downtown and in many cases may be on private property. The Plan of Development highlights opportunity sites and concepts that would benefit from reinvestment or have previously been considered with partners. The DDA will serve as an advocate for our core values and desired outcomes with the City, partners, and private sector. The DDA plan of development outlines a variety of guiding principles, priorities and strategies for consideration going forward. This vision is outlined at a broad level as a foundation for a wide range of opportunities to support economic vitality and placemaking in the downtown area. As a companion to this broader vision, the DDA should also adopt a strategic work plan that would focus on specific initiatives in the short to medium term and would be revisited on a more frequent basis. The work plan would focus on individual projects spearheaded by the DDA, City, and Council in response to current circumstances and needs of the downtown area. Types of projects for consideration include the following:

• **6th Street Improvements.** The 6th Street area revitalization is detailed in the study 6th Street Corridor Master Plan. Implementation of this plan would create a more pedestrian and bicycle friendly experience in this important part of the City for locals and tourists alike. Funding for this project area was included in the Access and Infrastructure bond package passed in 2016 and is of utmost importance to revitalization of this area.

• **8th Street Crossing.** The City of Glenwood owns approximately 12 acres of undeveloped land between City Hall and the confluence of the Colorado and Roaring Fork Rivers. This represents an extraordinary opportunity for the City, the community and the DDA to shape the future of the City with a development that creates the appropriate mix of open space, affordable housing, commercial, retail and other uses building on prior work as documented in the Area Wide Plan. The DDA should have a leadership role in this project as it moves forward recognizing that implementation of the project will occur over a 10-20 year timeframe. Evaluation of this project against the DDA’s guiding principles and priorities will help to ensure a development that is appropriate for Glenwood.
• **Downtown Vacancies.** Working with the City’s Economic Development Specialist, Chamber and others to diversify uses in the downtown core and entice new tenants is critical to a healthy, vibrant environment.

• **Alley development.** Glenwood has an untapped network of alleyways that could provide important and vibrant connections to primary streets and thoroughfares. With a commitment to convert single use trash and recycling to communal block wide compactors, there is an opportunity to reimagine alleys as pedestrian ways with expanded outdoor dining, mural art, lighting, planters, etc., in effect enlarging the footprint of the downtown and enticing people to experience the downtown core in a broader variety of ways.

• **Pedestrian Improvements.** Pedestrian improvements along Cooper (beautification) - Many of the City’s prominent retail establishments and restaurants are located on Cooper Avenue and have developed a flavor for the arts. Building on this theme creates a greater sense of place for the street and might inform future enhancements to draw increased visitation to this area of town. Streetscape improvements should consider lighting, furniture, planting and other amenities designed in conjunction with the need for ongoing vehicular traffic and parking.

• **Parking Concerns.** Supply and location of parking is a common concern for many downtowns and Glenwood shares this concern. As the City continues to evolve, parking is a complex and important issue that needs to be re-evaluated on a continual basis. The 2020 MOVE plan will provide an analysis of parking alternatives over a long-term horizon looking at the pros and cons of paid parking, potential locations for parking garages, relocation of parking, parking for employees versus shoppers, etc. This plan will create a baseline for discussion and implementation into the future with the ability to adjust and respond to changing dynamics and unforeseen opportunities.

• **More cyclist friendly.** Glenwood Springs sits at the intersection of a significant regional trail system along the Rio Grande from Glenwood to Aspen, to the east through the Canyon, and to the west by way of the future LOVA trail. As a hub location, the City wants to embrace safe and easy bicycle movement through the downtown core. This will support both the trail users and the casual biker exploring the downtown area.

• **Celebration of the Historic District.** The City of Glenwood Springs has a rich and deep history as a spa town along the railway. Celebration of this history is integral to Glenwood’s identity and adds immeasurably to the downtown experience. Continued recognition of this history is inextricably tied to Glenwood’s sense of place and small-town character and should continue to be recognized as fundamental to future downtown planning and development.

**PLAN MONITORING + EVALUATION**

Monitoring and evaluating the success of activities guided by the Plan of Development will ensure that the Downtown Development Authority, the City of Glenwood Springs and its partners are on track to achieve the outcomes as outlined in the Plan. The DDA Plan of Development should remain relevant and responsive to changing conditions. To allow for flexibility, the Plan of Development does not include action items, but should be used to create a detailed work plan based on the core values and desired outcomes. The workplan should take into consideration the sample strategies section outlined earlier in the plan.

The work plan will be approved by the DDA Board of Directors and will be reviewed to measure progress toward goals using both a qualitative and quantitative process to evaluate investment and improvements to Downtown. A regular work plan review will examine the priorities of the Downtown and identify opportunities to adapt or implement new strategies. The DDA staff will continually monitor the status of action items and publish an annual status report on the DDA website.
WORK PLAN GUIDELINES

The Glenwood Springs DDA will work on an as needed basis to create a plan of work that outlines specific tactics and projects that will further the vision as laid out in the Plan of Development update. A Tactics Matrix will assist in aligning efforts and ensure that the DDA is adhering to the vision as outlined in the Plan. A format for the matrix follows, to be filled in as part of the Work Plan update.
