It is currently parked in a two hr parking zone with no parking between 3AM and 5AM. Business management requests it be moved. The cobwebs growing from the vehicle and attached to the street indicate it's been left abandoned for quite some time.

Narrative	<p>At approximately 6:30 p.m., I received a call for assistance by SP Frazee, who is the on-site security guard. She stated that an unknown dark skinned individual was barefoot, roaming around the building. Making gestures and loud noises in and around a large group of young children during a "story time"</p> <p>Upon arrival, I observed the subject that SP Frazee had described. As I entered the building, Frazee and the gentleman were in the center area near the computers. The individual appeared to be special needs and approximately 25 years old.</p> <p>Awoman then, who was off to their side, suddenly became aggressive towards SP Frazee. I intervened while standing approximately six feet from her and advised her not to get physical.</p> <p>The woman had continued to verbally assault SP Frazee, using extreme profanity. I was able to deescalate some of the tension as I escorted the woman and gentlemen out of the building by request of the library staff.</p>

Narrative

While conducting routine foot patrols of a nearby property. I observed several miscellaneous items left or discarded in the alleyway and bushes in between the Vernon Street parking garage and Tower Theater.

Over the last several months, I have reported that this particular location is a "hot spot" or a favorite place for transients to either hide or sleep in to avoid being seen.

I did not encounter any persons in or around the area at this time.

Narrative	<p>While conducting routine vehicle patrols through the Vernon Street parking garage. I observed a tan or gold Honda Pilot (CA/LP # 6EJP171) with (1) white male in the back passenger seat and (1) white male adult sleeping in a bag, just outside the vehicle. In previous encounters, the individual on the ground has been positively identified by RPD as Vincent Barnao.</p> <p>I made contact with the individuals and advised them to vacate the areas immediately. Neither responded, even after a second advisement. I then notified Roseville PD and requested an officer response.</p> <p>Approximately 15 minutes later, Officer Kinney arrived on site and took over. Later, she explained to me that because the parking garage is public, not much could be done at this time. However, she added that she advised them the same as i did. With that, they understood camping in a vehicle is against city ordinance.</p>

Narrative	<p>This report details my observations of a two-vehicle accident at the intersection of South Grant and Vernon Streets at approximately 4:25 p.m. on 07/28/25. While stopped at a red light facing eastbound on Vernon Street, I witnessed a collision between a white Nissan Versa (CA license plate 7UQA918) and a white Nissan Sentra (CA license plate 7BQF509), both traveling westbound.</p> <p>The Versa, leading the Sentra, initially appeared to be preparing for a left turn onto South Grant Street. However, after proceeding approximately 15 feet with its right turn signal activated, it executed a sudden and abrupt U-turn. The Sentra's driver attempted evasive action, but the Versa's left side impacted the Sentra's left front wheel well and hood. Neither vehicle's airbags deployed.</p> <p>Both drivers declined medical attention and reported being unharmed. I activated my emergency lights and stopped to provide assistance. Roseville PD was independently notified by both drivers. Following an exchange of information between the drivers, a passenger in the Versa (the driver's mother) became verbally aggressive towards both myself and the Sentra's driver.</p> <p>She vehemently asserted her daughter's innocence, citing the absence of signage prohibiting U-turns, and demanded I convey this opinion to the authorities. I explained that I would be filing a report based on my observations and that this report would be accessible the following day if required.</p> <p>The Sentra's father subsequently arrived and assisted his daughter with reporting the incident. The Sentra was then driven away, while the Versa's occupants arranged for towing services. drive off on its own. The Versa and its occupants had requested a tow truck.</p> <p>Nissan Versa driver: Sara Blair Phone: (702) 277- 2238</p> <p>Nissan Sentra driver: Elizabeth Patterson Phone: (916) 724 - 9584</p>

Narrative

While conducting routine vehicle patrols through the Vernon Street parking garage. I observed (2) male transients loitering and sleeping on the fifth floor of the structure. In previous encounters, these individuals identified themselves as George and Dillion (pictured in the sleeping bag).

I made contact with both gentlemen and advised them to vacate the areas immediately. Shortly thereafter, all parties departed without any further incidents.
