Story City
 GREATER CHAMBER CONNECTION
A Main Street Partnership

Investing in the Story City Chamber Main Street helps drive the mission of the organization forward while continuing to promote our community as a desirable place to live, shop, work, and play. When you invest in the Chamber Main Street, you invest in the community you want to live in through the use of revitalization and placemaking projects, events for the community to enjoy, along with added growth and promotion of your own business.

When we join forces, we help preserve and strengthen our community for the years ahead.

We offer our investors the opportunity to advertise their business, network with potential partners, access to exclusive news and information, and a chance to further their professional development skills.
